PROFESSIONAL SUMMARY

Motivated MCA student at Guru Ghasidas Vishwavidyalaya with strong knowledge of modern web development technologies and hands-on project experience. Skilled in HTML, JavaScript, React.js, Node.js, Tailwind CSS, MongoDB, API Integration, and Git/GitHub. Passionate about building responsive web applications and continuously improving development skills through real-world projects and internships.

EDUCATION

Master of Computer Applications (MCA), Software Development

Guru Ghasidas Vishwavidyalaya

CGPA: 6.23/7

2025-2027

Bachelor of Computer Applications (BCA), Computer Science & Engineering

Gaya College, Gaya

percentage: 66.4

2021-2024

WORK EXPERIENCE

AUG 2024 - SEP 2024

Web Development Internship

Codeclause, Virtual

I completed an internship at CodeClause, where I worked on real-world projects to enhance my development skills. During the internship, I gained hands-on experience in coding, problem-solving, and building responsive web applications. I also improved my understanding of modern technologies, teamwork, and project management while delivering assigned tasks within deadlines.

PROJECTS

Personal Portfolio Website ↗

Mar 2026 - Present

Technologies: React.js, Tailwind CSS, Vercel

Designed and developed a modern responsive portfolio website. Showcased projects, technical skills, and personal information. Implemented clean UI and responsive layouts.

Git Explorer ↗

Aug 2024 - Sep 2024

It fetches real-time data such as repositories, followers, and activity using GitHub APIs. Built with a clean and responsive interface for better user experience. Implements API handling, error management, and dynamic rendering. This project enhanced my skills in API integration and frontend development.

Calculator App ↗

May 2026 - Jun 2026

Technologies: JavaScript, HTML, CSS

Built a functional calculator application with arithmetic operations. Improved problem-solving and JavaScript logic skills. Created responsive and interactive user interface.

Current Project – SevaStu ↗

Mar 2026 - Present

Role: Frontend Developer

Working on frontend development and responsive UI implementation. Contributing to modern web application features and user experience.

TECHNICAL SKILLS

Programming Languages

- JavaScript
- Java
- C++

Frontend Development

- React.js with Next.js
- Tailwind CSS

Backend & Database

- Node.js with Nest.js
- MongoDB
- REST API Integration

Tools & Platforms

- Git
- GitHub
- VS Code

CERTIFICATIONS

CodeClause Web Development Internship Certificate

Web Development Practice Projects

CAREER OBJECTIVE

To obtain a challenging role in a growth-oriented organization where I can apply my technical skills, enhance my knowledge, and contribute to impactful software development projects while growing professionally.

ACHIEVEMENTS

Built multiple responsive web applications using modern JavaScript frameworks.

Developed real-world frontend projects with API integration.
